Fanshawe College - Student Feedback Survey

The Student Feedback Survey (SFS) is an important tool that provides opportunity for continuous improvement in teaching and learning. SFS results offer valuable insight into your teaching practices. Positive changes in teaching practices can lead to improvement in student learning and engagement.

The survey does not require students to enter a response for every statement. As a result, the number of responses for individual statements may vary.

As you read the students' comments watch for useful suggestions, constructive feedback, or recurring themes. Focus your improvement efforts on areas of teaching that students find important.

Please keep the response rate in mind when interpreting the SFS results. If only a small proportion of students in your course completed the survey, the feedback might not represent the viewpoint of an entire class.

Please note: If a survey form is completed for a course that is team taught by multiple instructors a report will generate if 4 or more students complete the survey, regardless of whether or not the individual response threshold was met (Threshold = 4 or more responses).

Very interesting course! The professor is great, conveying information clearly and effectively. The professor made the course very engaging and sparked my interest! My only comment would be regarding the questions, in both directions: It's not always clear when the professor is asking a question to the class, and when someone asks a question, it isn't always understood correctly, which sometimes leads to answers that don't fully address the question. However, this might just be a language barrier. Other than that, excellent!
Excellent teacher with indepth knowledge about course and great teaching skills
Thanks to professor Noorchenarboo!!
I would like to have more teaching session with him because of the time limit. He can't explain well and just touch and go. I love the way of he strict about his mid-term exam from cheating.
