

Individual Teacher Report for Mohammad Noorchenarboo (All Courses)

Project Title: **Student Feedback Survey Summer 2024**

Courses Audience: **36**

Responses Received: **5**

Response Ratio: **13.9%**

Fanshawe College - Student Feedback Survey

The Student Feedback Survey (SFS) is an important tool that provides opportunity for continuous improvement in teaching and learning. SFS results offer valuable insight into your teaching practices. Positive changes in teaching practices can lead to improvement in student learning and engagement.

The survey does not require students to enter a response for every statement. As a result, the number of responses for individual statements may vary.

Please keep the response rate in mind when interpreting the SFS results. If only a small proportion of students in your course completed the survey, the feedback might not represent the viewpoint of an entire class.

Please note: If a survey form is completed for a course that is team taught by multiple instructors a report will generate if 4 or more students complete the survey, regardless of whether or not the individual response threshold was met (Threshold = 4 or more responses).
