Fanshawe College - Student Feedback Survey

The Student Feedback Survey (SFS) is an important tool that provides opportunity for continuous improvement in teaching and learning. SFS results offer valuable insight into your teaching practices. Positive changes in teaching practices can lead to improvement in student learning and engagement.

The survey does not require students to enter a response for every statement. As a result, the number of responses for individual statements may vary.

As you read the students' comments watch for useful suggestions, constructive feedback, or recurring themes. Focus your improvement efforts on areas of teaching that students find important.

Please keep the response rate in mind when interpreting the SFS results. If only a small proportion of students in your course completed the survey, the feedback might not represent the viewpoint of an entire class.

Please note: If a survey form is completed for a course that is team taught by multiple instructors a report will generate if 4 or more students complete the survey, regardless of whether or not the individual response threshold was met (Threshold = 4 or more responses).

Please comment on how your instructor Mohammad Noorchenarboo helped your learning in this course or suggest possible changes that would improve your learning. Inappropriate comments will not be reported.

Comments
Professor Mohammad was great! He taught us the details of the code which helped me understand more.
The teacher has helped me understand the core concepts through clear and memorable examples. He also uses technology effectively to explain ideas in a visual and intuitive way. He always arrives on time for class and answers all questions promptly and concisely. Moreover, he often shares valuable advice and life experiences to help students gain a realistic understanding of the job market. Overall, he is an excellent lecturer, and I would like to suggest considering a salary increase and assigning him more teaching hours.
Overall, the instructor taught the material well and made difficult topics easier to understand using examples. The main change I'd suggest is a more structured weekly schedule with clear instructions—especially a brief weekly roadmap showing last week's topics, this week's goals, and upcoming deadlines.
Prof Mohammad Noorchenarboo is an excellent teacher and has helped me to gain confidence in the subject. Amazing teaching skills and the real life examples for the concepts really helped me to understand.
we really love his teaching style and his kindness. He consistently makes sure we fully understand the material and explains concepts in a clear, supportive way. His patience is incredible and it genuinely makes a difference in our learning experience. I'm very happy and excited to have him again as my professor next semester
He explained all the concepts in detail and made sure everyone understood before moving on. It helped to understand all of the fundamental concepts. Overall I learned a lot and was able to apply the things I learned as well.
He is an excellent professor who demonstrates strong subject knowledge and effective teaching methods. His explanations are clear, and he encourages student participation and understanding.
He had a very different teaching approach, especially with the use of AI nowadays. He helped us truly understand the core concepts of neural networks and the code behind them. He explained things in a way that made even difficult code understandable, and he has laid amazing groundwork for my future potential.
He is a really good professor and I enjoy the style of teaching he makes it so easy to understand
Great overall, just need to be more firm
thank Professor
He teaches very well, using clear explanations, practical examples, and interactive playgrounds that make complex concepts easier to understand and apply.
Mr. Mohammad Noorchenarboo was an excellent instructor who explained TensorFlow and Keras concepts clearly and effectively. His practical, hands-on approach made complex topics easier to understand and apply. He was supportive, approachable, and consistently encouraged problem-solving and learning through practice.
